

GED to Job Ready Program

Curriculum

This 28-week innovative training program offers students the opportunity to receive an industry recognized credential after completing the academic coursework of the GED. This provides an opportunity to graduate with two successful completions as well as jump start into a high priority occupation.

The GED program offers the necessary lessons, including Pretest and posttests to help the student pass the GED exam. Students will work on GED coursework and once completed will sit for the GED exam.

The Job Ready portion offers the student the ability to seamlessly enroll in one of the three courses listed.

Exam for GED and one Job ready course is included in the cost.
